PROFILE

Game developer with 8+ years shipping mobile and live-service games, including 6+ years at Amanotes. Owns Unity/C# gameplay systems end-to-end: rhythm mechanics, SDK integration, optimization, and production debugging. Track record on shipped mobile titles, internal SDK/tooling, and a Steam-released Unity indie game.

CORE SKILLS

Unity, C#, Unity 2D/3D, Mobile (iOS/Android), Gameplay Systems, SDK Integration, UI Integration, Performance Optimization, Production Debugging, Live Ops Support, Rhythm/Music Gameplay

Additional: Cocos Creator, PlayCanvas, JavaScript, HTML5, Node.js, Steam/PC, React Native

EXPERIENCE

Game Developer (Unity) — Amanotes

Oct 2022 – Present

- Own production support for shipped Unity music titles including Beat Drum and Guitar Fire.
- Deliver rhythm gameplay, SDK integration, performance tuning, and cross-platform live production work.

Game Developer (Unity) — Fiberblock

Jan 2022 – Oct 2022

- Delivered core gameplay for Tank Warzone and multiplayer puzzle features in NFT game production.
- Built Unity gameplay systems and multiplayer-facing features under production deadlines.

Game Developer (Unity) — Skargon / Funnii

Apr 2021 – Dec 2021

- Shipped All-Stars music game and hyper-casual prototypes under tight iteration cycles.
- Built Unity/Cocos prototype pipelines and content workflows for faster delivery.

Unity Developer — Amanotes

Aug 2018 – Apr 2021

- Built Unity/Cocos SDKs used across partner integrations and multiple shipped music games.
- Shipped Unity and HTML5 music titles; built Node.js audio analysis tooling and React Native platform support.

Part-time Unity Developer — Unicorn

May 2018 – Jul 2018

- Delivered airplane shooter gameplay and early Unity prototype systems.

SELECTED PROJECTS

Amanotes Music Games (Unity Production, 2018 – Present)

Long-running ownership of rhythm gameplay across Beat Drum, Guitar Fire, Dancing Wings, Tiles Hop, Magic Tile Dance, and related prototypes. Unity-first delivery with SDK integration and live production support.

Blood Field / Co Ma (Unity, Steam, 2021 – 2022)

Co-founded TEGA Studio and shipped a Unity first-person horror title on Steam with full 3D gameplay and indie production pipeline.

Tree Studios Unity Prototypes (2025 – 2026)

Converted art-heavy briefs into playable Unity showcases including Knight Saga, Golden Mirage, and Lil Tree Gangz with gameplay flow and UI integration.
