Top 40 Games & Apps
Bluebird Award 2016

PROFILE

Game developer with 8+ years shipping mobile and live-service games, including 6+ years at Amanotes. Owns Unity/C# gameplay systems — rhythm mechanics, SDK integration, optimization, and production debugging — across shipped titles, internal tools, and Steam-released indie work.

EXPERIENCE

- OCT 2022 — PRESENT
Amanotes

Game Developer · Unity

 - IMPACT: Own production support for shipped Unity music titles including Beat Drum and Guitar Fire.
 - SCOPE: Rhythm gameplay, SDK integration, performance tuning, and cross-platform live production.
- JAN — OCT 2022
Fiberblock

Game Developer · Unity

 - IMPACT: Delivered core gameplay for Tank Warzone and multiplayer puzzle features in NFT production.
- APR — DEC 2021
Skargon / Funnii

Game Developer · Unity

 - IMPACT: Shipped All-Stars music game and hyper-casual prototypes with Unity/Cocos iteration workflows.
- AUG 2018 — APR 2021
Amanotes

Unity Developer

 - IMPACT: Built Unity/Cocos SDKs adopted across partner integrations and multiple shipped music games.
 - SCOPE: Unity & HTML5 music titles, Node.js audio analysis tooling, React Native game platform support.
- MAY — JUL 2018
Unicorn

Part-time Unity Developer

 - IMPACT: Delivered airplane shooter gameplay and early Unity prototype systems.

SELECTED PROJECTS

- Amanotes Music Games

2018 — Present · Unity production

Long-running rhythm gameplay across Beat Drum, Guitar Fire, Dancing Wings, Tiles Hop, Magic Tile Dance, and related prototypes — Unity-first production support.

UnityC#MobileSDKLive production
- Blood Field · Steam

2021 — 2022 · Co-founder

Co-founded TEGA Studio and shipped a Unity first-person horror title on Steam with 3D gameplay and full indie production pipeline.

UnityC#3DSteam
- Tree Studios · Unity Prototypes

2025 — 2026 · Client work

Converted art-heavy briefs into playable Unity showcases (Knight Saga, Golden Mirage, Lil' Tree Gangz) with gameplay flow, UI integration, and prototype polish.

Unity 2DC#Prototyping
